Q & A
POOL HEATER REPLACEMENT PROJECT AT RUSCH PARK POOL
RFP #2019-9-RPP
September 25, 2019

- 1) Is Sunrise Recreation and Park District accepting bids for the equipment only for this RFP, without installation?

No.

- 2) This install does not need the Truseal Air Intake and Tankstat Well Assembly Kit because the ventilation in the pump room is sufficient without this added feature. Should we bid without these components?

Note: This question was raised at the site walk-through. SRPD is still investigating whether these components are necessary.

SRPD is asking each contractor to include 2 bid sheets (page #4 of RFP):

- a. **One bid sheet with all the components listed**
- b. **One bid sheet excluding the Truseal Air Intake and the Tankstat Well Assembly Kit.**

- 3) Is this a seasonal facility?

Yes, we typically operate this pool April – September.

- 4) We recommend you consider a Cold Water Run System for this facility. Can we include that in our bid?

Yes, please add any recommended additions to our install list in the ADDENDA portion of your bid. The project will still be awarded to the lowest base bid.

Bids are due: NO LATER THAN: 2:00 P.M., THURSDAY, OCTOBER 3, 2019
