On your DIY dice write the letters you want your preschooler to focus on. With your letter ladder template write the letter that correspond with the letters on the dice. You are all set!

Have your preschooler roll the letter dice and have them write it on the ladder that has the matching letter!

For an added challenge, you can turn your child's name into a ladder, taking away one letter left to write, have your child fill in the empty space with the corresponding letter for their name.
