

## Sunrise Kids Club Virtual Preschool

### Fine Motor Activity 3: Rescue the Bugs

Through this activity, the child will be able to do the following:

- Exercise the small muscles in the hands and fingers
- Enhance hand-eye-coordination.
- Explore textures

#### Supplies:

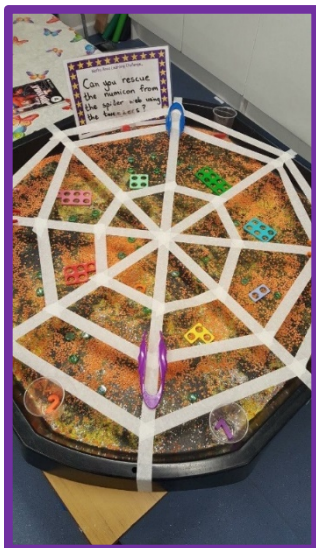

- Medium to large but shallow container
- Yarn
- Set of toy bugs
- Tweezers

#### Instructions:

1. Wrap the yarn around the container. Criss-cross the yarn so it looks similar to a spiderweb, leaving gaps for the bugs to go through
2. Place the bugs in the container and spread them out
3. Using the tweezers, your child can rescue the bugs trapped inside the container.

*If you do not have any bugs, feel free to use buttons, legos, small toys, anything they can pick up with tweezers.*

*Expand the learning: Now it is the child's turn to be the spider as they navigate through the web to catch the bugs. The bugs can be made of almost anything (paper, pipe cleaners, etc.)*
